

# Asphalt & Concrete

## Asphalt Super Lute

**MADE IN THE USA**

- Oversized 1-3/8" Handle Diameter
- Extra Long 82" Handle

The Asphalt SUPER LUTE features the lightweight strength and durability of all aluminum construction. An 82" long, oversized diameter handle offers comfort and control. The heavy-duty wrap-around brace connection will not twist or turn.

**THE ORIGINAL**

- Bolted through wrap-around bracing

## Asphalt Rake

- A BIG 18-3/4" extended tang keeps hands and handle away from tar and asphalt while rake is in use
- Double riveted head-to-handle connection...means extra strength

Head to handle connections eliminate pullout

Double riveted for added strength
