

Steel Landscape & Aggregate Rakes

- An upgrade to the road and stone rake
- Double riveted head-to-handle connection through extra long 8" steel ferrules... means extra strength
- 4"x 5/16" thick teeth, extra heavy-duty pattern steel heads
- Hardwood handles
- A tough tool for tough raking

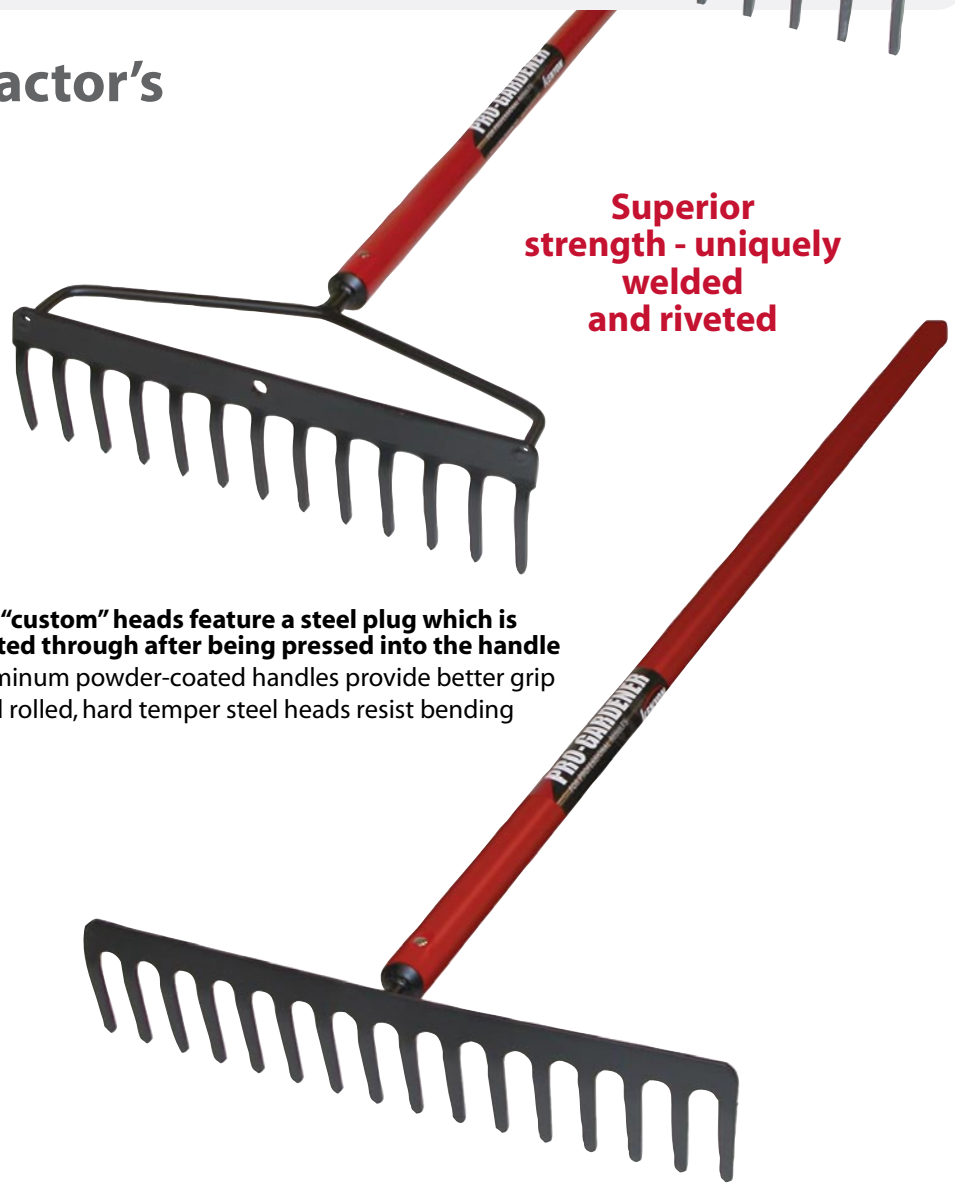

MWR Item No.	Kenyon Item No.	Head Size in.	Handle Length in.
63124	54-010	16	62
63126	54-110	18	62

EXCLUSIVE
