Dual Purpose Rake

THE ORIGINAL

MADE IN THE USA
EXCLUSIVE

A proven seller to the landscape/irrigation contractor and sports field maintenance professional. An ideal raking, spreading (particularly small aggregate) and backfilling tool.

This innovative and versatile tool has two teeth designs. The short teeth are used for breaking up hard packed clay and grading, while the long teeth are for wet clay and general raking.

- Available in 17", 24" and 36" head widths
- 66" red powder-coated aluminum handle with 6" non-slip vinyl grip*
- The "Original" bolted through wrap-around bracing
