

**MADE IN THE USA EXCLUSIVE**

- Available with or without hooks
- The heads are designed to allow for head-to-handle connections to be set at varying angles
- Offered in three different handles: powder-coated aluminum, painted hardwood or fiberglass

## Concrete Placers

Midwest Rake Company placers are often asked for by name. They are very durable, but at the same time, very light in weight and **the 20" aluminum/magnesium alloy blade is also replaceable...** just one more Midwest Rake added value feature.
