# High Performance Floor & Surface Coating

## A Sampling of Industrial/Marine Floor and Surface Coating, and Waterproofing Tools

Midwest Rake Company partners with most major manufacturers of floor coating and other high performance industrial and marine surface coating systems. Our tools are used in their training and certification programs and specified and recommended for use with their products for reasons of quality, durability, innovation and performance. **The regular use and representation of Midwest Rake products by those who make protective coating products is the highest form of endorsement and compliment... and your best guarantee that selling and/or using our tools will translate into a job well done.**

### Surface Prep

#### Brooms & Brushes

Wire Deck & Prep Brush

48038
