

Roller Covers & Frames

We offer a wide range of rollers, roller covers, and roller frames up to 36" in width. Our roller covers are available in single units or packs of 12. Roller cover nap lengths range from 1/4" to 3/4". Loop, mohair, synthetic, fabric, phenolic, "ribbed" and aluminum rollers are available. Special rollers are available for terrazzo applications. All rollers shown are solvent and shed-resistant.

We offer roller frames up to 36" in width. Shown are: **A.** The Heavy-Duty fixed aluminum roller frame in 18" and 36" widths (available in 9', 18', 24" and 36" widths). **B.*** The 9"-18" Adjustable roller frame which requires 1/4" end caps - the "best" adjustable frame on the market. **C.** The 9" Universal roller frame. See price guide for all item numbers. (*Best-seller)

These frames require special 3/8" post hole end caps to adapt the frame to any 1-1/2" roller.

9" & 18" Loop Roller

9" & 18" Mohair, 1/4" Nap Roller

9" - 36" Pro-Grade, 9" & 18" 1/4" - 3/4" Nap Roller

9" & 18" Phenolic Roller

9" & 18" Epoxy Coating Roller

3", 6", & 9" Ribbed Rollers

Spiked Rollers

These spiked rollers are vital in ensuring proper floor coating adhesion. They are used on freshly applied floor coatings to release trapped gas and assist in the floor leveling process.

These rigid, solvent resistant, aluminum cored polypropylene spiked rollers are available in spike lengths of 7/16", 9/16", and 13/16". A variety of spike configurations per spike ring are available. The rollers are available in widths ranging from 9" to 48"; come with a heavy-duty aluminum frame with high grade stainless steel axles and our own unique gusset bracing. They are available with a threaded handle adapter or with a fixed powder-coated aluminum handle. The 9" rollers come on a radial roller frame. Replacement rollers are available.

We also have "metal-tined" spiked rollers

Low Viscosity Mixers

Jiffy Mixers

- Pro-Grade mixers are the "choice" of many contractors
- Low shear for minimal air entrapment while mixing
- Quality powder-coated steel construction in 2 sizes
- 1-2 gallon paddle with 3-1/2" turbine style head on a 19-3/4" x 5/16" diameter hex shaft
- 2-5 gallon paddle with a 23-1/2" x 3/8" diameter hex shaft
- Ideal for lower viscosity materials
- "Jiffy" Mixers are also available

Pro-Grade Mixers

See our **Protective Coatings Catalog** for complete product details!
