

Contractor Grade Rakes

Aggregate/Field Rake

Designed to the specifications of concrete contractors and professional landscapers, **the extended straight edge on this rake was engineered specifically for grading.** Its rounded teeth offer smooth, non-gouging raking action, while its durable 66" powder-coated aluminum handle with non-slip vinyl grip and strong wrap-around bracing take a real beating and still provide for long lasting, comfortable performance. **This is the perfect rake to level aggregate base material in forms prior to pouring concrete as well as when preparing a dirt surface for grass seed or sod.**

Chisel-Tooth Rake

The **aggressive chisel-sharp teeth and forward grading edge** set this rake apart from our other rakes. It is an excellent choice when you need to penetrate and break up hard soils. It is **often used, as well, in spreading asphalt, concrete, stone and other heavy aggregate materials.** The extra-thick teeth hold up to extremely heavy professional use, while the 66" powder-coated aluminum handle with a non-slip vinyl grip and our own wrap-around brace design provide for maximum comfort and durability.

Screening Rake

This rake is specially designed for sifting, grading and screening. **It is an excellent tool when you need to sift or screen stones and debris from sand or fine soil.** It comes with a 66" powder-coated aluminum handle and our strong wrap-around bracing which provide maximum durability and comfort.

Landscape Rake

The standard design of the industry, this rake is one of the most popular professional models and one of our most copied designs. **Its long rounded teeth provide a smooth non-gouging raking action, while its straight edge is excellent for grading. Strong wrap-around bracing and heavy-duty double-rib construction maximize head stability and ensure long-lasting performance, even under the heaviest professional use.** It comes with a durable 66" powder-coated aluminum handle with a non-slip vinyl grip for added comfort.

Super Pusher

Made of high quality aluminum, this durable versatile tool can be **used to scrape dirt or material off floors in warehouses, barns, garages and greenhouses. It can also be used to move a variety of materials, grade soil or push aeration plugs off turf.** It comes with either a 36" or 48" head and a 66" powder-coated aluminum handle. Wrap-around bracing ensures maximum strength.
