

## Smoother/Spreader EXCLUSIVE

This tool is lightweight, yet durable. It features a 22" frame with a 23-1/2" x 2" heat-treated steel blade, fan-shaped for next to wall coverage, and a reversible "threaded" handle adapter assembly allowing for use as a smoother or spreader.

See handle options on page 66 - use #SP20215 (wood) or aluminum powder-coated handle.

Long handled "troweling" action, too...

## The Original "Magic Trowel"

The Magic Trowel is used to smooth the surface of applied cementitious overlays, particularly overlays of a more fluid consistency. A very effective finishing tool capable of creating a flawless surface.

Available in 12", 18", 22", 24" and 26" widths.

## Topping and Underlayment "Super Squeegee" MADE IN THE USA

A 24" low-angle/clamp style frame with a durable gusset bracing system is combined with a rounded edge, 3" exposed neoprene rubber blade. The result is a tool that effectively eliminates the need for troweling. A true spreading and smoothing squeegee allowing the contractor opportunity to save time and money when working with "toppings", underlayments and "high-mil" self-leveling materials. The contractor-friendly head to handle to surface angle has made this a very effective and popular tool.

## Flexible Blade Smoother

This flexible 24" x 5" rounded corner steel blade is bent and angled to maximize blade contact with a range of surface coating materials. This smoothing tool can also serve as a spreading tool and even a surface preparation tool. It is most often used when troweling and/or smoothing overlay/underlay material (toppings) of a more cementitious composition prior to surface treatment. The blade is contained in a durable aluminum frame with our superior gusset bracing system. This tool is available with a threaded handle adapter or with a 66" powder-coated aluminum handle. Straight blade smoothers are also available.
