

Screening Rake

This rake is specially designed for sifting, grading, and screening. It is an excellent tool when you need to sift or screen stones and debris from sand or fine soil. Its 66" powder-coated aluminum handle with 6" non-slip vinyl grip and strong wrap-around bracing provide for maximum durability and comfort.

YardPro Rakes

Similar to the Field Rake, the YardPro head is designed with an excellent grading and striking edge and rounded, non-gouging teeth. Its 66" powder-coated aluminum handle provides extra comfort, while its push-pull bracing is twisted in opposite directions to eliminate head wobble. **The YardPro is available in 14" and 17" widths** (with a 60" powder-coated aluminum handle) which were specially designed for easier handling in gardening situations. Available in point-of-purchase (POP) packaging.

Chisel-Tooth Construction Rake

The **aggressive chisel-sharp teeth and forward grading edge** set this rake apart from our others. It is an excellent choice when you need to penetrate and break up hard soils. It also works exceptionally well when spreading concrete or stone. The extra-thick teeth hold up to extremely heavy use, while the 66" powder-coated aluminum handle with 6" grip provides for maximum comfort.

Stone/Aggregate Rake

The **double riveted head-to-handle connection** through an extra long 8" steel ferrule provides extra strength.

With hardwood handles and an overall tool length of 62", this tool is a tough one for tough raking.

Pro Turf Lute

This lightweight, heavy-duty lute combines an engineered head design with our strong wrap-around bracing and is perfect for spreading gravel or for grading soil. We use a solid aluminum plug in our head-to-handle connection, unlike the plastic or wood plugs used in many other brands. This lute comes with either a 66" or an 82" powder-coated aluminum handle.
