

UGLY TOOLS®

"Weapons for the Serious Gardener"

These versatile tools may be ugly, but they are perfect for working in the garden, digging through roots, or breaking up clay and other hard packed soils. They come with 15" oval shaft steel handles with ergonomic grips for added comfort.

MWR Item No.	Description
41004	Spade/Cultivator Combo
41005	Hoe/Cultivator Combo

Signature Hand Tools

Lasting quality and durability...simply the best.

These polished aluminum small hand tools are cast as a single piece for added strength and come with a non-slip comfort grip.

Bed/Garden Trowel

- 3" wide scoop style beveled blade
- 5" digging depth
- Larger and "higher-sided" blade than the more narrow transplanting trowel

41032

Cultivator

- 3" tines with 1-1/2" teeth
- Teeth are beveled for greater penetrating action

Super Fork
Vinyl-Coated Steel Handle
(Wood and Powder-Coated Aluminum handles are also available)

ProPlanter This professional-grade landscape tool is a back saver! It is designed to greatly reduce the time and effort spent in planting tray-style annuals and bedding plants in large commercial and recreational bedding areas requiring mass plantings. Made of powder-coated steel construction, the ProPlanter comes in the three-prong (6" on center) and one-prong designs.

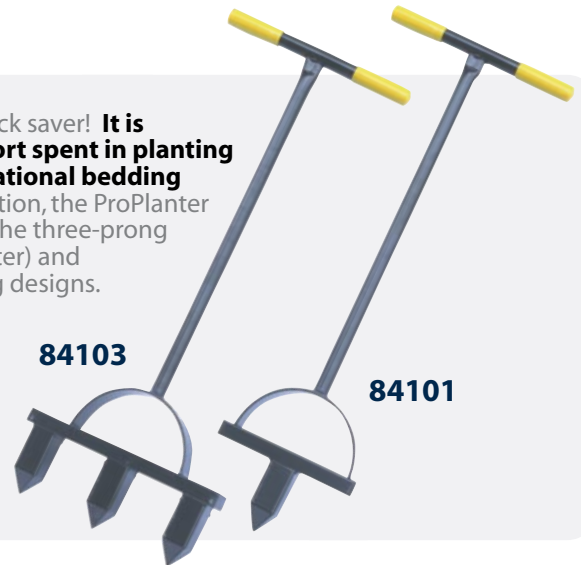

1. Prepare your bed by cultivating the soil.

2. Punch the holes by stepping on the non-skid step plate.

3. Plant and water.
