

15 Gallon Mixing Barrel

Mixing barrels can be hard to come by...reconditioned or new. The 15 gallon mixing barrel (European style) with fixed side handles and sealing lid is the standard. Used to mix more cementitious materials prior to application.

Please call 1-800-815-7253 for availability and pricing.

- HD Polyethylene
- Belted lids
- Web or pegged handles

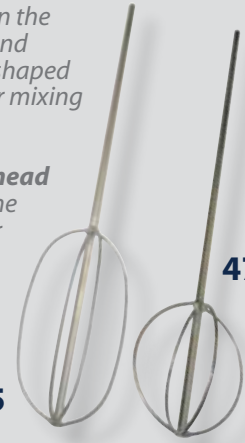

(Features of the reconditioned barrels may vary)

High Viscosity Mixing Paddles

These mixers are used by those in the decorative concrete, stamping and terazzo markets. The "football" shaped cage configurations are ideal for mixing more viscous "topping" and impregnated and cementitious materials. The **larger 10" x 6" head** is designed for barrel mixing. The **smaller 6" x 4" head** is ideal for 5 gallon quantities. Both mixers effectively remove air without splash-out. Both have an overall length of 26" with a hex shaft.
