

Brushes and Brooms

Steel Wire Brooms

We offer two styles of aggressive steel wire brooms. These brooms are excellent for heavy scrubbing. Choose from either the **16" Round Wire Broom (47026)** or the most aggressive **12" Flat Wire Broom (47025)**. These two brooms come with either an ergonomic or straight 60" yellow powder-coated aluminum handle and our super-strong, unique gusset bracing system. The heads by themselves are also available. Trim length is 3-3/4" on the round wire and 5" on the flat wire.

Steel Wire Brush (Long Handled)

Spend less time on your knees and less time on a ladder. This 7-1/4" wide brush (**47007**) has 1-1/4" long tempered steel wire bristles and comes with our superior gusset bracing system and a threaded handle adapter, or with a 60" straight or 60" ergonomic yellow powder-coated aluminum handle.

Duo Broom

This broom (**82104, 82106**) has a highly effective sweeping action because of its **combination of strong 3" polypropylene bristles from the General Purpose Broom with an added layer of outside bristles specifically designed to sweep the finest of materials.** For maximum strength, this broom comes with our own **unique gusset bracing and a 60" ergonomic yellow powder-coated aluminum handle resulting in more broom contact with the surface to be swept. It is available in 24" and 36" widths.**

General Purpose Broom

This 24" General Purpose Broom (**82124**) has 3" durable polypropylene bristles, firmly attached to a high quality hardwood shoulder and features our **super-strong, unique gusset bracing system** - you will not find a better braced broom. It has a **60" ergonomic yellow powder-coated aluminum handle which makes it very comfortable to use and maximizes bristle contact with the surface to be swept.**

Street/Landscape Broom

Stiff, extra-long bristles make this 18" Street Broom (**82118**) an excellent choice when you are dealing with rough surfaces. **This broom has 5" orange poly-corn bristles and comes with our super strong unique gusset bracing and a 60" ergonomic yellow powder-coated aluminum handle.**

A must...

Measuring Wheels

You need to know the surface area first... it's just that simple.

85701

"Telescoping" handle... 4" diameter wheel

85712

Wider wheel for better balance

Our "Bracing" makes these brooms #1 in durability
